Relaxation Body Oil - A gentle treatment that relieves muscular tension, increases circulation, and will promote a general sense of relaxation.

Muscle Relaxant - A deep tissue massage gets deep within muscle tissues in order to stretch, loosen and relax the muscle to therefore relieve tension.

Energising - Use a combination of percussive motions called tapotements, deep kneading and more vigorous motions to get your blood circulating

Cellulite Detox - By applying great pressure to areas of the skin affected by cellulite. This pressure is said to both break up toxins and fat while simultaneously improving blood circulation to the area.

Hot Stone: 60 mins R1 040 | 90 mins R1 560

While providing additional deep tissue pressure, the heated stones infuse muscles with warmth while breaking up knots of tension. Our chosen massage medium is Relaxing oil with a beautiful blend of essential oils to help ease tension and create a complete state of relaxation.
